Intellectual Property Notice

This template is an exclusive property of **Mapua-Malayan Digital College** and is protected under **Republic Act No. 8293**, also known as the *Intellectual Property Code of the Philippines* (IP Code). It is provided solely for educational purposes within this course. Students may use this template to complete their tasks but may not **modify, distribute, sell, upload, or claim ownership** of the template itself. Such actions constitute copyright infringement under **Sections 172, 177, and 216** of the IP Code and may result in legal consequences. Unauthorized use beyond this course may result in legal or academic consequences.

Additionally, students must comply with the **Mapua-Malayan Digital College Student Handbook**, particularly with the following provisions:

- **Offenses Related to MMDC IT:**
 - **Section 6.2** – Unauthorized copying of files
 - **Section 6.8** – Extraction of protected, copyrighted, and/or confidential information by electronic means using MMDC IT infrastructure
- **Offenses Related to MMDC Admin, IT, and Operations:**
 - **Section 4.5** – Unauthorized collection or extraction of money, checks, or other instruments of monetary equivalent in connection with matters pertaining to MMDC

Violations of these policies may result in **disciplinary actions ranging from suspension to dismissal**, in accordance with the Student Handbook.

Provide details on their roles, responsibilities, and data expertise.	audience has varying levels of data expertise, so the data story will use clear charts and straightforward comparisons rather than highly technical analysis.
Purpose Statement: Clearly state the purpose of your data story. Outline the key questions or problems your data story will address.	To present the state of digital connectivity across Philippine regions by looking at internet usage, network reliability, and demographic patterns among individuals aged 10 years and over. The goal is to identify areas where connectivity gaps still exist and use the findings to suggest possible improvements for present and future digital infrastructure, accessibility, and inclusion.
